

Gamma Project proposal

In order to support classroom teachers, our chapter is introducing chapter projects that allow educators to submit online applications for chapter grants up to \$500. Chapter members will vote on total funds to be dispersed.

Chapter members will contact their current or former schools to give a brief explanation of our chapter project initiative. This will be accomplished by contacting the school principal and giving a description of Gamma Chapter and requesting permission to share with school staff about applying for project funding. One possibility might be presenting at the second staff meeting of the new school year. An email with the Google form link will be sent out following the presentation.

The online application will be available until the last Friday of October. A chapter committee will be formed to review and approve the projects. The checks will be handed out to members at the following in-person meeting for them to deliver to the project funding recipients. Recipients are to send pictures of their projects via email to our chapter by March.

Criteria for the teacher projects will need to be developed over the summer prior to chapter project start. DKG International and ADSOEF grant applications may be used as resources to help develop criteria. Members who are interested in serving on the committee can let Michele Koenig know.
